PREFACE

Survey Approach

Resident and nonresident antelope license holders were randomly sampled from our license database. Hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

NUMBER ISSUED.....The total number of licenses issued or the number of license holders when an individual could have two or more licenses

HUNTERS.....The number of hunters who hunted one or more days

HUNTER DAYS.....Sum of whole days or portions of days hunted

PERCENT SUCCESS.....The number of hunters who killed one or more antelope divided by the total number of hunters and multiplied by 100

LOWER.....Lower confidence limit at a level of confidence of 80 percent

POINT.....The estimated value

UPPER.....Upper confidence limit at a level of confidence of 80 percent

SP.....An abbreviation for special license

SP 700-00.....License holders of 700-00 either sex licenses for region 7 and/or unlimited, multi-district, doe/fawn licenses for regions 6 and 7

SP 800-00.....Multi-district archery only license holders

SPECIAL.....Used in regional or state summary pages to indicate total of all special licenses

UNKWN.....A symbol for unknown used to designate unknown sex

TOTAL HARVEST.....Estimated total kill for all age/sex classes

Explanations

The antelope hunting and harvest statistics are estimates made from a sample of 18,674 questionnaires representing about 37% of all antelope license holders. Confidence-interval estimates are given for hunters, hunter days, and total harvest. Confidence intervals are given at the 80 percent confidence level, meaning that the actual value will be between the lower and upper limit in four out of five cases. The relative precision of the estimate increases with the size of the estimate. Regional estimates have greater relative precision than district estimates and the statewide estimates have the greatest relative precision.

All estimates represented are rounded to the nearest whole number. It is for this reason that rows and columns do not always agree exactly with row or column totals given.

(CONTINUED)

The availability of a new license type, the unlimited, multi-district, doe/fawn antelope license, valid in all of regions 6 and 7, had some effect on the analysis methodology and interpretation for regions 6 and 7. Most of these licenses were purchased by a person who already held one of the either sex antelope licenses issued through the drawing. Since we sampled and contacted license holders (a person who had one or more antelope licenses) and could not always differentiate between hunting/kill activities on the different licenses, license holders were classified and sampled by their either sex license type whether or not they had an additional doe/fawn license. The doe/fawn license activities were included with the other special license type that identified the class of license holder.

A person who had only a doe/fawn license was identified as a 700-00 license holder, and the 700-00 license type group contains license holders who purchased only the doe/fawn license as well as those who purchased the 700-00 either sex license. For region 6 either sex license holders, the results include doe/fawn license hunting and kill activities that occurred within the same hunting district for which the hunter's either sex license was valid. Any doe/fawn hunting or kill activities that occured outside of the hunter's region 6 either sex license district were lost and were not included in the report.

ANTELOPE REGULATIONS

LICENSES & GENERAL INFORMATION

- Legally described Bear Management Areas (BMAs) — the Rocky Mountain East Front, Scapegoat, and Flathead — within the area known as the Northern Continental Divide Ecosystem are open to the hunting of grizzly bears of either sex beginning October 1, 1989. The grizzly bear season is scheduled to close November 26, 1989. However, any or all of the BMAs will close on 48 hours notice if the total mortality quota, or the female subquotas, are reached before November 26, 1989.
- Each BMA has its own female grizzly bear mortality subquota. The Northern Continental Divide Ecosystem's quota, and each BMA's female subquota, include all grizzly bears killed by human activity in 1989, which may or may not include grizzly bears legally harvested by sportsmen. It is possible then, that the total grizzly bear mortality quota, or any or all of the individual BMAs female subquotas, could be reached before October 1, 1989, which would preclude the hunting season from opening.
- Sportsmen may purchase only one grizzly bear license per year, available from the Helena Headquarters only. Application deadline is August 31.
- Refunds for licenses will be made only upon written request to the Director, and only if a season is not offered **or** if the applicant's license is received after the season closes in the Northern Continental Divide Ecosystem. Season closure in the sportsman's individual bear management area of choice will not be considered valid for a refund if the season remains open in another bear management area.
- Sportsmen may legally harvest one grizzly bear of either sex. Female bears with young and individual young may not be harvested.
- Sportsmen are limited to a "once-in-a-lifetime" harvest of a grizzly bear.
- To reduce the likelihood of taking a female grizzly bear, hunters are requested not to shoot grizzly bears found in groups of two or more.
- The grizzly bear license and tag must be attached to the hide immediately upon kill. Evidence of sex must remain naturally intact on the carcass or skin.
- Sportsmen harvesting a grizzly bear must, if required by the Department, physically return to the kill site for inspection.
- It is prohibited for any person to remove any portion of a grizzly bear from the State of Montana without first obtaining a trophy license.
- It is illegal to bait bears or to hunt bears with dogs.
- Current harvest information may be obtained by calling the appropriate Fish, Wildlife and Parks Regional Headquarters during normal business hours. See Regional Headquarters listings on page 5. Sportsmen may call toll-free 1-800-332-6117 during the authorized grizzly bear hunting season to obtain current information on districts closures.

MANDATORY REPORTING REQUIREMENTS

- Any person taking a grizzly bear must report the harvest within 48 hours to an official of the department and must personally present the hide and skull within 10 days to an official of the department for purposes of inspection, tagging, and recording of kill. The hide and head must be retained even though damaged. Sportsmen harvesting a grizzly bear must on demand physically go back to the kill site for inspection.
